

TIPS FOR SUCCESS: MATH1310

Recommendations from P2L Peer Coaches:

- **Pay attention** and **take good notes** during class
- Complete all **class prep** and class activities
- **Review your notes** outside of class
- **Learn the logic** behind the formulas
- Do plenty of **practice problems** in preparation for tests and exams
- Take a complete **practice exam** so you can determine what you don't know
 - Exam problems are often similar to problems on the study guide and old exam questions
- Explain concepts to others and talk about different ways to solve problems
- Join a **study group**
 - It makes it more enjoyable!
- Go to **office hours!!!**

"USE YOUR RESOURCES. Go to office hours, P2L, exam review, and anything else you can. Even going just to sit and listen will help, but it will be even better if you engage, work with others, and ask questions."
